

§ 216.7 Exemption of proposed Manual directives from normal procedures.

When it is found for good cause that an exigency exists, an interim Manual directive that is determined to be of substantial public interest or expected controversy may be issued in advance of providing opportunity for public comment. However, as soon as practicable after issuance, the interim Manual directive will be made available for public review and comment as described in § 216.6. In making the Manual directive available, the responsible official shall state why the interim directive was issued prior to obtaining public comments.

§ 216.8 Availability of proposed Manual directives identified for formal public review.

As a minimum, review copies of proposed Manual directives determined to be of substantial public interest or expected controversy shall be available in the Forest Supervisor's Office and District Rangers' Offices when National Forest proposals are involved; in the Regional Office and Forest Supervisors' Offices when regional proposals are involved; and in Regional Offices and National Headquarters when national proposals are involved. When Manual directives involve Forest Service Research or State and Private Forestry programs, review copies shall be available at comparable administrative offices.
